Dear Professor Steindorff,

The typewritten copies of Woolley's Field Notes arrived yesterday morning, and I have collated them throughout with the original Field Notes. All my corrections of, and additions to, the typewritten copies have been ~~indix~~ made in red, so that you will have no difficulty in see<sup>ing</sup> what has been done to them. I have not however corrected details of the plans in the copies, as you will now of course consult Woolley's originals for these.

I enclose the collated copies herewith, and am sending you the original Field Notes by the same mail, but under separate cover.

Please note that there is an error on page 1 of "Various Small Objects and Fragments from Anibeh", enclosed in my letter of Oct. 13th last. The small ivory cone (Photo. 2914, c), given under (C) as from An. 14, (b), Not Catalogued, really comes from An. 19, and not from An. 14 (see Field Notes of An. 19) . The number written on the object looks more like "14" than "19".

With hearty greetings, I am

Ihr getreuer

Battiscombe Gunn
