Dear Dr Steinhardt-

I was in Philadelphia recently & applied to the Museum for the notes which ought to have been sent to you long ago. The Secretary, Miss McHugh, told me that they had been unable to find any trace of the notes. This is most extraordinary, as they are Museum property

and must needs be in
the Museum archives. But
I had not time to search
for them myself. There is
now a new Director, Dr.
Jayne, & I should recommend
that you apply again to
him. Possibly it might
be worth while to write
also to Dr. Maclover who
as head of the Nabian
expedition might know
what was done with the

material.

I am most anxious
that it should come into
your hands & be published
by you together with your
own results, & sincerely
hope that the Museum
may find it & deliver it
to you. Yours very truly

Alfred Hoare
