Dear Professor Steindorff,

I send you herewith the two large photographs of the Aegean pot, E. 11264, to which I referred in my last letter.

These photographs were made before the missing parts of the vessel were filled out with white plaster. The photograph showing the slanting top view is useful for showing the decoration of the interior of the rim, but is otherwise not very good. A much more satisfactory side view could be taken. If you would like to have one for your publication, we shall of course be happy to make it.

Yours always sincerely,

Battiscombe Gunn
