

THE UNIVERSITY MUSEUM  
UNIVERSITY of PENNSYLVANIA  
PHILADELPHIA

December 1, 1933.

Doctor Georg Steindorff,  
Prendelstrasse 2,  
Leipzig C. 1,  
Germany.

Dear Professor Steindorff:

Under separate cover (in a cardboard cylinder) I am today sending you an inked-in squeeze of the stone number E 11371. As before, signs etc. given in broken lines on the squeeze are visible on the field photograph (No. 937) enclosed herewith but have disappeared from the stone itself. I enclose details of this stone.

This, so far as I know, is the very last thing I have to send you, but I am also putting into this envelope some rough, hand-copies of the inscriptions already sent, as they might possibly be of some use to you.

With hearty greetings,

Ihr getreuer,

*Batterscombe Gunn*
