

2. Januar 35.

Dear Miss Moon.

Many thanks for sending me through Prof. Gunn the answer to some questions, I had on the Aniba-material in Philadelphia. The only important demand I still have, is: is it possible to send me a coloured copy of the Stela of Meri (E 11367). I should like very much to publish a coloured plate of it in the publication of Aniba, as the Stela is one of the most interesting objects found. I am sure the Museum has a painter who is accustomed to the Egyptian style and can do it properly.

There are a few small matters still outstanding, which I am writing to you about later. I thank you for all your kindness. With best greetings

Yours

G. Staff
