UNIVERSITY of PENNSYLVANIA  
PHILADELPHIA

Oct. 19 1933.

Dear Professor Steindorff,

I find that I have omitted to give you the measurements of the two  
bronze finger-rings <sup>III55A, III55B</sup> since they have been taken apart, and also details  
as to the maskin bit of finger-ring of faience <sup>III57D</sup> (all appearing on Photo  
2915, sent to you on Oct. 13). You will find these particulars on the  
attached sheet.

Yours always sincerely,

*Battiscombe Gunn*
