Dear Dr Steindorff.

I furnished Sadiq ne Reis of Dr Junker with the railway warrants for 20 more workmen (5 men 15 boys) & have told him that they must leave Shellal by the Post steamer on Tuesday for Amiba.

The maps have been sent to you by the Service I went to the Survey for them on Saturday morning to avoid the delay of correspondence.

The Aeroplane photograph was enlarged from a negative which I believe with the authorities at the Aswan

Dam. I am finding out who did the enlargement & will try to get you another copy.

I have misapprehended on the Dept that is very necessary for you to get your money in good time & that the money is not withheld on account of some technical irregularity in the Receipts or the Clerks inexperience or stupidity.

I wish I could help you more, but the distance is so great. I will always promptly attend to any matter you write to me about by return of post (and there is only one post a week) Europe is nearer than Nubia! With best wishes for the New Year & for your work Believe me yours very sincerely  
Cecil R. Fox
