Dear Prof. Stenderff.

Many thanks for your letter.

With regard to the bachshik for your workmen.

The Egyptian Government as a rule do not give bachshik but in some cases this can be managed, and I advice you to write to Smith for advice. He arranged it with great difficulty for me, but only after many months and much trouble.

In fact I paid my men their bachshik today for their work last season !!

I am sorry I could not visit you dig before we left Masara, but work came with a rush and we were forced to move south in a hurry.

The area here is better and less plundered than north of Anelba and we have not done badly.

Kindest regards to all.

Yours sincerely

Walter B. Emery
