

# Transfer Pathway Guide

## Management Science, B.S.

Students transferring from a college or university using the Texas Common Course Numbering System (TCCNS) may use this <u>recommended</u> academic plan as a model for on-time completion of the degree. While not required for transfer to SMU, this plan prioritizes completion of major prerequisites and Common Curriculum (CC) requirements in Year 1 and Year 2, maximizing use of TCCNS courses. You may consult the <u>Undergraduate Catalog</u> to view all degree requirements and prerequisites. Course availability at SMU is subject to change and the plan shown below may change based on updates to SMU's course offerings. Please visit <u>smu.edu/transfer</u> for scholarship and admission information to plan the timing of your transfer to SMU and the online <u>Transfer Equivalency Guide</u> for transferable course options.

Admission to the major requires a 3.000 and C- or better in the following courses: ENGL 1301, ENGL 1302, MATH 2413, MATH 2414, COSC 1436 and 1437, and SMU's CS 1342 and OREM 1360. For more information about the Operations Research & Engineering Management Department and their major, go to <a href="major.go"><u>smu.edu/OREM.</u></a>.

#### SMU Degree

A degree from SMU is comprised of a minimum of 120 hours, of which 60 credits (for community college transfers) or 48 credits (for four-year college transfers) must be completed at SMU, and where 42 credits must be in courses at the 3000-level or higher. The degree requires completion of a major and the Common Curriculum (CC) and may include elective courses or a second major or minor.

<sup>\*\*</sup>OREM requirements overlap with Exploring Science courses. Please consult the Undergraduate Catalog for a course list.

## **Common Curriculum**

The table below outlines the <u>Common Curriculum</u> (CC), SMU's general education and graduation requirements, and the TCCNS courses that are pre-approved to fulfill each requirement. Please refer to the CC External Credit Policies page to review related policies. **Courses in bold fulfill both a Breadth and a Proficiency & Experience.**

### **External Transfer Credit Policies**

Transfer credit is awarded for courses with a grade of *C*- or better at regionally accredited colleges or universities that meet SMU's academic standards. Courses with a grade of *D*+ or lower are not transferable to SMU for credit, however the grades are calculated into the transfer GPA. Vocational-technical courses (including WECM), courses below college level, credit by examination earned at another college or university, PE activity courses in excess of two hours, and ROTC credit in excess of twelve hours do not transfer.

#### **Common Curriculum Policies**

The Common Curriculum policies differ depending on the type of transfer student you are when you enter (matriculate to) SMU. Read the definitions and policies below to confirm how your credits will apply to the Common Curriculum.

First Year (FYR): a student who hasn't taken any college credits since graduating from high school.

**First-Year Transfer (FYT):** a transfer student with 1-23 hours of college credits taken <u>after</u> high school graduation.

Transfer (TRN): a transfer student with 24+ hours of college credits taken after high school graduation.

Courses used to fulfill the CC must be at least <u>3 semester credit hours</u>. Students transferring from a quarter system should multiply their credits by 0.667 to convert them to semester credit hours.

Requirement	First Year (FYR) & First-Year Transfers (FYT)	Transfers (TRNs)
Academic Writing & Critical Reasoning	AW and CR must be completed at SMU, regardless of external credit.	<ol> <li>Satisfied if student transfers in WRTR 10XX and WRTR 10YY; completed as transfer credit.</li> <li>If dual/concurrent or transfer credit is received for WRTR 10XX OR WRTR 10YY, students must take a CR course.</li> <li>If WRTR 10XX and 10YY were both dual/concurrent credit or test credit, students must take a CR course.</li> <li>Satisfied if WRTR 10XX is dual/concurrent credit or test credit awarded by a transferring institution AND WRTR 10YY is transfer credit.</li> </ol>
Quantitative Reasoning	Can be satisfied with external credit.	
Second Language	<ol> <li>Can be satisfied with AP/IB test credit (with an appropriate score).</li> <li>Can be satisfied by a transcript confirming high school study was instructed in a language other than English.</li> <li>Can be satisfied by transferring a language course taken as dual/concurrent credit that is equivalent to SMU's 3rd semester (2401) level or higher.</li> <li>Can be satisfied by transferring a language course taken as post-high school transfer credit equivalent to SMU's 2nd semester (1402) or higher.</li> <li>Can be satisfied by an appropriate score on an SMU-administered OPI or ASLPI test.</li> </ol>	
Breadths (all)	Up to 3 may be satisfied with external credit that is three semester credit hours or more; 4 must be SMU credit.	All 7 Breadths can be satisfied with external credit that is three semester credit hours or more.
Proficiencies & Experiences	Can be satisfied by external credit or post-high school activities. All experiences and some dual/concurrent, or transfer credit may need to be petitioned.	

- External credit: Credit earned through test, dual/concurrent transfer credit, or transfer credit.
- Dual/concurrent credit: course credits completed <u>before</u> high school graduation. Dual credit is work completed through a
  college (which could be taken at the college or at the high school) that counts for college credit and high school graduation
  requirements. Concurrent credit is work completed through a college, and the high school does not give credit for graduation
  purposes.
- **Transfer credit:** college credit completed <u>after</u> high school graduation but before matriculation to SMU. This does not include dual or concurrent credit.
